SAFE HOUSE PROGRAM AGREEMENT

The Safe House Program is an agreement signed by BB&N parents. The agreement states that if their child hosts a gathering in their home, apartment, second home, or office, the parent(s) will be present to chaperone the gathering and will not allow any drugs or alcoholic beverages to be served to minors on the premises. In addition, the parent(s) will secure any firearms and prescription drugs to assure that no students will have access during the gathering. This agreement is viewed as a means of promoting safety, health, and open communication among BB&N parents and students.

A list of families participating in the Safe House Program is posted on Knightline (password protected). Families on the Safe House list will remain there unless the family requests removal in writing. If you wish to participate in the program and to have your child's (children's) names appear on the list, please print and complete the form below including a signature and return to the Safe House Program, at the address listed above.

Please indicate your child's *Class Year*, not their grade level. Please view the conversion chart below for your convenience.
