

GLOBAL ONLINE ACADEMY

"We are thrilled to be able to partner with the Global Online Academy as a founding member school. The opportunity for our students to have access to interesting, engaging, online courses in addition to our current curriculum, is one we highly value as an important learning experience."

~ Geoff Theobald, Upper School Director

ONLINE LEARNING OPPORTUNITIES

BB&N is a member of the Global Online Academy (GOA), a consortium of over 50 leading independent schools throughout the U.S. and abroad that offers our students the opportunity to learn alongside peers across the country, as well as the world.

ABOUT THE GLOBAL ONLINE ACADEMY

The mission of Global Online Academy is to replicate in online classrooms the intellectually rigorous programs and excellent teaching that are hallmarks of its member schools; to foster new and effective ways, through best practices in online education, for students to learn; and to promote students' global awareness and understanding by creating truly diverse, worldwide, online schoolroom communities.

COURSES & TEACHERS

Characteristics that make GOA particularly attractive to a school such as ours include the small class sizes (maximum of 18 students per class), the high academic standards of the partner schools, and the fact that all courses are taught by faculty at these partner schools. Students enrolled in GOA courses combine asynchronous, independent work with frequent opportunities for collaboration with classmates as well as real-time, electronic interaction with their teacher. Weekly check-ins occur on our campus with faculty member Lizanne Moynihan, who serves as BB&N's GOA Site Director.

During the 2018-2019 academic year, students may now enroll in either a year-long or semester-long course for the Fall or Spring semesters. This year, 28 interested BB&N juniors and seniors have enrolled in a GOA course in science, History and Social Sciences, Art, Mathematics, and World Languages.

This opportunity is especially appealing for students who are passionate about a particular subject and are looking to take a course with a group of equally curious and motivated learners from around the World.
