

## Dear BB&N Community:

Over the past year we have been celebrating the 50-year anniversary of the merger of Browne & Nichols and the Buckingham School to create our beloved Buckingham Browne & Nichols. Over the past 50 years our school has changed in many ways, yet at our core we remain true to our commitment to our motto: Honor ~ Scholarship ~ Kindness.

Our commitment to develop lifelong learners who lead with kindness, curiosity, and integrity would not be possible without the generosity of alumni, parents, grandparents, faculty, staff, and friends. The support of our donors is one of the many reasons why BB&N continues to thrive.

As highlighted throughout this report, your support continues to make so much possible throughout all three of our campuses. You will see that we continue to support our commitment to making BB&N affordable for all families through robust and increased financial aid, including a new Financial Aid Fund established by the Class of 2024 Senior Parents' Gift.

Your support also allows us to provide robust support for summer curriculum development work, and makes it possible for us to make important improvements to our physical spaces. And for the third year, our Teaching and Learning Office awarded Innovation Grants to faculty and students who are bringing their creativity and new ideas to benefit our students. And that is just the tip of the iceberg in terms of the exciting things happening throughout our school.

These advancements would not be possible without your financial support, as well as the dedication of nearly 600 volunteers whose time and talents enhance and enrich our community every day. Thank you for all you do for our school. I cannot wait to see what our students will accomplish over the next 50 years. I'm so proud to be a part of this amazing community.

Best,

**Jennifer Price**

Head of School
